'PM Modi To Address Public Rally In Kashmir In March'

AGENCIES

SRINAGAR: Prime Minister Narendra Modi is likely to visit Jammu and Kashmir next month and address a public rally in Anantnag district, BJP sources said here on Tuesday

This would be the prime minister's first visit to the Kashmir Valley after the abrogation of Article 370 in August 2019.

The public rally will be held as part of the BJP's election campaign for the forthcoming general polls, the sources said.

'The prime minister's public rally is scheduled in Anantnag district next month," the BJP sources said.

While the exact date is yet to be finalised, the rally will take place any day between March 14 to 17,' the sources said, adding the party was waiting for the final dates from the Prime Minister's Office.

The BJP is focussing on the Anantnag-Rajouri Lok Sabha seat which

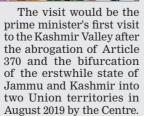

comprises of the south Kashmir areas of Shopian, Kulgam and Anantnag, and Rajouri-Poonch areas Before delimitation

of the constituencies in Jammu and Kashmir, Anantnag seat comprised only of the four south Kashmir districts -- Shopian, Kulgam, Pulwama and Anantnag.

The seat was won by National Conference's Justice (retd) Hasnain Masoodi in 2019 Lok Sabha polls.

in Jammu.

However, this would be Modi's second visit to J&K in two months. The PM addressed a public rally in Jammu on February 20 during which he also unveiled multiple development projects totalling over RS 32.000 crore.

Houseboat Sinks In Jhelum River

REHAN OAYOOM MIR

SRINAGAR: A houseboat sank in the Jhelum River in the Rajbagh area here on Tuesday morning.

Abdul Rehman Pakhtoon, the owner of the houseboat, that they discovered the sinking houseboat early in the morning. "As soon as we noticed it, we immediately alerted the administration for assistance," he said.

As we informed the authorities, the State Disaster Response Force (SDRF) and the Fire and Emergency Services swiftly initiated a rescue operation to handle the situation, he added.

Abdul Rehman said they need support and shelter from the administration, especially considering the inclement weather conditions.

When contacted, the President of the Houseboat Association (HBOA), Manzoor Ahmed Paktoon told KNO that the issue of sinking houseboats in the Jhelum River has been persisting for long. "This • P-06

BJP strengthens grip on Rajouri-Anantnag seat ahead of LS elections

ALI ASAD

SRINAGAR: As BJP state President Ravinder Raina on Tuesday has been nominated as a candidate for Rajouri- Anantnag Seat for the forthcoming Lok Sabha polls, the party is meticulously planning to secure victory on the seat through more means than one.

In a strategic move aimed at consolidating its presence in the crucial Rajori-Anantnag Lok Sabha constituency, the Bharatiya Janata Party (BJP) has welcomed three prominent leaders along with their supporters into its fold. This development marks a significant effort by the BJP to expand its influence in the Kashmir Valley

Former National Conference minister Mushtaq Bukhari, ex-MLA Shahnaz Ganai, and former MLC Rafiq Shah have recently

joined the BJP, signaling the party's concerted push to capture the Anantnag-Rajouri parliamentary seat. These acquisitions underscore the BJP's determination to make inroads into Kashmir politics with substantial backing from influential leaders who hold sway over both Pahari and Gujjar communities, as well as Muslim voters.

lakh voters in the constituency, including significant proportions of Pahari, Gujjar-Bakarwal, and Muslim electorates, the BJP's stra tegic maneuvering seeks to capitalize on shifting political dynamics. Notably, the recent grant of Scheduled Tribe (ST) status to the hills by the BJP government has altered the electoral calculus, as a con-

With approximately 14

affiliations to the National Conference (NC) and the People's Democratic Party (PDP) is now up for grabs.

Sources informed that the BJP's outreach efforts in the region may extend further in the coming days, with plans to enlist additional prominent leaders from both hill and Muslim communities. This concerted approach underscores the BJP's resolve to contest the Rajori-Anantnag seat vigorously

In a parallel development, the BJP dealt another blow to the National Conference as former provincial secretary KD Singh, along with 300 supporters, joined the party. Additionally, senior BJP leader Nanak Chand and more than 100 supporters aligned themselves with the BJP in a symbolic move aimed at strengthening the party's grassroots presence—(KNO)

High-end CCTV cameras installed on Udhampur-Banihal highway

MUBASHIR ALAM WANI

SRINAGAR: Traffic police authorities along the Udhampur-Banihal highway stretch have installed high-end Closed-Circuit Television (CCTV) cameras equipped with night vision capabilities.

Rohit Baskotra, Senior Superintendent of Police (SSP) for Traffic National Highway Ramban, highlighted the significance of camera installation, saying it will ensure enforcement and regulation. "We have installed night

vision-enabled high-end cameras on those points which witness the traffic congestion. The points include Dalwas, Mehar, Jakhani Chowk and other places," he said, adding that the cameras have been installed at strategic

Ganderbal embarks on

comprehensive Tourism

Development Plan

locations so that they can give a view of at least 3-4 kilometres

Rohit said the functioning of the cameras will be monitored by the traffic control Ramban, and that with the help of these cameras, the field agencies will get to know where exactly they have to reach to address any issue arising

due to traffic jams, accidents or breaking down of any vehicle.

"The cameras are strategically positioned at multiple locations along the particular stretch to facilitate smoother traffic management and address congestion effectively," he said.

SSP Traffic NHW

Ramban underscored the significance of these cameras in addressing hitand-run cases, saying they serve as a valuable tool for tracking down vehicles involved in such incidents. Currently, 10 cameras

have been installed, with plans to add more soon, he said.

"We are looking to expand the coverage by installing cameras at an additional 5-6 locations, thereby further enhancing traffic regulation and enforcement," the SSP added.

He said that the initiative signifies a proactive approach by the authorities towards leveraging technology for ensuring safer and more efficient travel experiences along the Udhampur-Banihal stretch—(KNO)

Convergence for empowering youth NIFT Srinagar signs MoU with IIM Jammu

GMK NEWS NETWORK

JAMMU: The Indian Institute of Management (IIM), Jammu and the National

Institute of Fashion Technology (NIFT) Srinagar on Tuesday inked a Memorandum of Understanding (MoU) to boost entrepreneurship and innovation in J&K. The MoU was signed at Bharat Mandapam, New Delhi during Bharat Tex 2024 by Prof B. S. Sahay Director, IIM Jammu and Dr Javid Wani, Director NIFT Srinagar. The MoU is envisioned for a collab framework between the two prestigious institutes for convergence in the areas of academics, research, executive education, training, and the

Jammu and NIFT Srinagar seeks to bridge this gap, promoting interdisciplinary approaches to problem-solving and ensuring the success and sustain-

ability of both institutes. "The MoU outlines several areas of collaboration, including academic partnerships, joint executive education programs, and sharing of research facilities. A key focus is the joint development of entrepreneurial activities, start-up incubation facilities, and the overall enhancement of the entrepreneurial ecosystem in J&K," the hand-

out reads. Convergence of two reputed institutions in J&K is expected to foster exchange of students. staff, educational resourc-

J&K to produce high-density plantation material of 12 fruits: Dir Horti

JAHANGEER GANAIE

SRINAGAR: The government is set to produce the quality high density plantation material of 12 fruits in Jammu and Kashmir.

Director Horticulture Kashmir Gh Rasool Mir said that with the introduc tion of the High-Density Plantation (HDP) system and production of quality planting material, the government is set to revolutionize its fruit industry.

"High density orchards have proved very beneficial for the people of Jammu and Kashmir but the plantation material being brought to J&K from Europe isn't enough to cater to the demand,' he said

He said that the government has decided to produce planting material of 12 fruits in J&K and in next five years J&K will become a self-reliant bio-economy by harnessing the econom-

week of March.

Morning Kashmir

PM's Kashmir Visit

here is massive euphoria in Kashmir. From Kupwara to Qazigund everyone is joyous to know about the decision of Prime Minister Narendra Modi to visit Kashmir in person next week. It is a great moment in the history of Kashmir as this visit comes just a couple of months before the voters in India will decide PM Modi's third term as the prime minister of India in the privacy of the voting booths.

Not many details have been divulged as of yet but obviously what is known till now is that he would be attending an official meeting and will address a public rally in Anantnag. While Modi has visited Jammu at least three times in the last few years it will be his first visit to Kashmir after many years. Some observers believe that he may thank the people of Kashmir valley for showing maturity post abrogation of article 370 and also the last unconnected link of the Indian Railways' ambitious project of connecting Kashmir with Jammu could be inaugurated by Modi on this tour. While some observers feel he might inaugurate a job mela like the ones being conducted in Uttar Pradesh and Karnataka recently. It could also be that he will inaugurate a slew of projects and also lay the foundation stone of the Baramulla-Kupwara rail link.

Whatever be the main pivot of Modi's visit this visit is of immense significance. He will definitely begin the outreach by highlighting the massive number of tourists that visited Kashmir in the last few years, the revenue generated from horticulture, and the general peace around. This outreach would be aimed at making inroads at the voter base of Kashmir. BJP wants to increase its voter share in Kashmir and if the latest trends are anything to go by BJP will win quite a good percentage of votes in the valley.

The people of Kashmir are eagerly waiting for Modi to make the speech in his famous style and inaugurate a slew of projects for the betterment of Kashmir Valley. This visit can further increase the tourist flow to Kashmir. The last five years have been the most peaceful that Kashmir has ever been. All thanks to the vision of Prime Minister Narendra Modi and the meticulous execution of the same vision by Lieutenant Governor Manoj Sinha – a true doubleengine governance.

Pros And Cons

Contributions Of Citizens In Pollution Control

DR. RAJKUMAR SINGH

itizens play a crucial role in pollution control through various actions and behaviors that contribute to reducing pollution in their communities and beyond: a. Reducing Waste: By minimizing waste production, reusing items, and recycling, citizens can significantly reduce pollution. This includes reducing single-use plastics, composting organic waste, and recycling materials like paper, glass, and metal. b. Conserving Energy: Using energy more efficiently at home and in transportation can lower pollution levels. Simple actions like turning off lights when not in use, using energyefficient appliances, and reducing car use in favor of walking, cycling, or public transportation can make a big difference. c. Supporting Clean Energy: Citizens can advocate for and choose to use renewable energy sources such as solar, wind, and hydroelectric power over fossil fuels. This reduces greenhouse gas emissions and air pollution. d. Educating and Raising Awareness: Sharing information about pollution and its effects with friends, family, and community members can lead to collective action and behavior change. Education can empower individuals to make more environmentally friendly choices.

Participating in Community Clean-Up Activities: Engaging in local cleanup efforts, such as beach, river, or park clean-ups, can directly reduce pollution in local environments. f. Advocating for Environmental Policies: Citizens can influence pollution control by supporting policies and legislation that protect the environment. This can include voting for environmentally responsible leaders, supporting environmental organizations, and participating in environmental advocacy and protests.

Practicing Sustainable Consumption: Choosing to buy products that are produced in an environmentally friendly way, have minimal packaging, and are made to last can reduce pollution. This includes supporting local and sustainable businesses and products. h. Responsible Disposal of Hazardous Materials: Proper disposal of hazardous materials like batteries, electronics, and chemicals prevents harmful substances from contaminating the environment.

History of pollution control: The citizens role in pollution control is deeply rooted in the environmental movement, which gained significant momentum in the 20th century, particularly in the 1960s and 1970s. This period marked a growing public awareness of the environmental impact of industrialization, urbanization, and the unchecked use of natural resources. Especially, the environmental movement and the recognition of the critical role that citizens play in pollution control include: a. Publication of Influential Works: The publication of Rachel Carson's "Silent Spring' in 1962 is often cited as a pivotal moment for the environmental movement. The book exposed the dangers of pesticide overuse, particularly DDT, and its detrimental effects on wildlife and human health, sparking widespread public concern about environmental degradation and the importance of pollution control. Environmental Disasters: Several environmental disasters highlighted

the consequences of pollution and galvanized public demand for stronger environmental protections. Notable examples include the 1969 Cuyahoga River fire in Ohio, caused by oil-slicked debris, and the 1967 Torrey Canyon oil spill, one of the world's most serious oil spills at the time. c. Rise of Environmental Organizations: The formation of environmental organizations, such as the Sierra Club, Greenpeace, and the Natural Resources Défense Council, played a significant role in mobilizing citizens and advocating for environmental protection and pollution control measures. d. Legislative Milestones: In response to growing environmental concerns, governments around the world began to enact legislation aimed at protecting the environment and controlling pollution. In the United States. this period saw the creation of the Environmental Protection Agency (EPA) in 1970 and the passage of landmark laws such as the Clean Air Act (1970) and the Clean Water Act (1972). e. Shift in Public Attitudes: The environmental movement led to a significant shift in public attitudes towards the environment. There was a growing recognition that individual actions and lifestyles had a collective impact on the planet, leading to increased interest in sustainable living, recycling, and conservation efforts. f. International Agreements and Conferences: The role of citizens in pollution control was also recognized at the international level, with conferences and agreements such as the Stockholm Conference on the Human Environment in 1972 and the Earth Summit in Rio de Janeiro in 1992, which led to important treaties and global initiatives.

Global status: The global status of the role of citizens in pollution control is dynamic and varies significantly across different regions and communities but there is a growing global consensus on the importance of individual and community actions in combating pollution and protecting the environment: a. Increased Awareness and Activism: There is a global increase in environmental awareness among citizens, partly due to the widespread availability of information through digital media. This has led to a rise in

pating in global movements like Fridays for Future, inspired by Greta Thunberg. b. Community-Led Initiatives: Across the world, there are numerous examples of community-led initiatives aimed at pollution control. These include local clean-up efforts, community recycling programs, urban greening projects and grassroots campaigns against local sources of pollution. c. Sustainable Lifestyle Choices: More people globally are adopting sustainable lifestyle choices that contribute to pollution control, such as reducing single-use plastics, choosing public transportation or ecofriendly vehicles, and supporting sustainable agriculture practices

The role of citizen science in moni toring pollution and environmental quality is expanding. With the availability of affordable monitoring technology, citizens can contribute valuable data on air and water quality, helping to identify pollution hotspots and inform policy decisions. e. Corporate and Government Accountability: Citizens are increasingly holding corporations and governments accountable for environmental protection and pollution control. Through campaigns, boycotts, and shareholder activism, citizens are pushing for more sustainable business practices and stronger environmental regulations. f. International Collaboration: Citizens' groups and non governmental organizations (NGOs) are increasingly collaborating across borders to address global environmental challenges, such as climate change, plastic pollution in the oceans, and transboundary air pollution.

Challenges and Inequalities: Despite these positive trends, there are significant challenges and inequalities in the role of citizens in pollution control. In some regions, lack of access to information, economic barriers, and political repression limit citizens' ability to engage in environmental activism. Additionally, the burden of pollution often falls disproportionately on marginalized communities, which may have fewer resources to advocate for change. h. Digital Engagement: Social media and digital platforms have become powerful tools for raising awareness mobilizing support, and coordinating actions. Online petitions, campaigns, and informational content can reach a wide audience and influence public opinion and policy. The global status of citizens' role in pollution control reflects a complex interplay of increased awareness, activism, and engagement across diverse communities, coupled with ongoing challenges and disparities.

Importance Of Reading Books

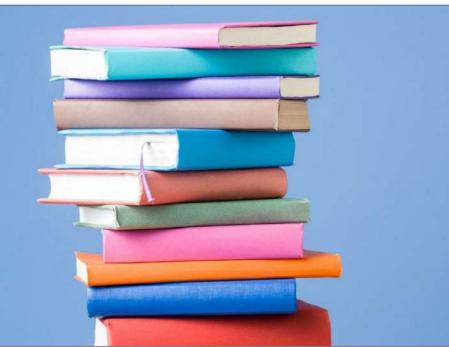

ncourage students to develop a mini home library, carrying or having 10 to 20 books, by giving them stars in their progress reports. Books are precious, books are assets, books are a treasury of knowledge, and books are the best alternative when we have nothing to do, books are so valuable, and books enhance our interest in several things. Books are the main source of facts and information. Books are compatible

gadgets carrying a gallery of

facts and figures. Why books? For students up to 10th grade, NCERT books and general knowledge from weekly or monthly magazines are the best sources of what they need. I suggest students in the 6th grade and above read NCERT books and accumulate basic knowledge for the higher classes. One very unfortunate thing is that the students of higher education are lacking in the basics of history, civics, geography, Urdu, Hindi, and English, as they have chosen some professional courses and

they think reading other books

is none of their business. One thing is clear: we have to know about all the subjects we are studying at the school level.

We should never prepare ourselves only for the final exams, midterms, or unit exams. As a parent or teachers, we provide our students with different interesting books that they read during their free time and get interested in several ways by reading books. School administrations should provide all the interesting and updated books to the students, provide them with knowledge about the scope of reading books, and provide them with what they will get in the future if they read books regularly and get started reading all the relevant books, which will benefit them in the future and make them feel very less pressure and stress.

We are making it our habit, and sometimes we purchase a storybook or a handy novel written by famous novelists. We think it's better to read books to enhance our interest and get updated on several concepts we have never learned during our school days or our study period. We have different and strange thoughts regarding book reading.

Like during school, most of us emphasize to our students to keep our whole concentration on certain subjects. We have changed our thinking and induced interest among the learners to learn in a very happy and free zone. In a free zone, our learners learn more things, and they will become independent learners at a comfortable stage of their age. I think up to the 10th standard, our learners must have a grip on spoken English and the ability to address several basic concepts. Usually, a degree is just a paper. We must have the potential so that we can learn from and discuss with others and teach others what we have accumulated.

Home library: I think we need to give stars to students in their progress reports who have maintained a home library with a minimum of 15 to 20 books. Home libraries are very important these days, as we are going through tough times. Make the students decorate Almirah with books. Some people used their room, Almirah, as they kept show pieces and had no fun with them. Keeping books in the Almirahs can provide a chance for your kiths and kin to learn more and more things within their room and have no need to go to libraries

Emphasize to students that they should have more books available at their home library and avoid going to libraries. Keeping all the trending books for various exams and all the story books, novel books, and religious books can give our learners a chance to learn when they feel free. Having facilities can provide us with a good opportunity to learn things in a very free and normal way.

Treatment Is Prevention **Identify And Treat All Tuberculosis Cases**

SHOBHA SHUKLA **BOBBY RAMAKANT**

The greater danger for most of us is not that our aim is too high and we miss it, but that it is too low and we reach it." These golden words of Michelangelo perhaps sum up the fundamental gap in the fight to end TB worldwide.

The stark reality that around 3 million people were missed by TB services globally in 2022 (as per the latest WHO Global TB Report) reminds us once again that there is no place for complacency. We have to a) stop missing all TB cases and b) stop failing to link every person diagnosed with TB to care continuum.

The only pathway to end TB is to find all TB, treat all TB, and prevent any further transmission of TB infection. "Once we diagnose a patient, we must treat them which also stops the spread of infection. Finding all TB patients and putting them on effective treatment is the most important part of #endTB efforts," said Dr Joju Pomson, a senior pulmonologist who has also served as District TB Officer and District Medical Officer in Kozhikode (Calicut) and Malappuram in Kerala.

Dr Pomson added: "If we do not find a person with TB, then the infection can further spread to another 10 people. That is why finding all TB cases, and treating all of them remains so fundamental. We must go for 100% detection of all estimated cases everywhere and put them on treatment, motivate them to finish the therapy and get cured. We also need to get the diagnosis closer to the people.'

Offering a TB test to all the people is important in high burden settings

'We are seeing more TB cases as we are testing more. Our latest National TB Prevalence Survey shows that around 60% of patients who had TB showed no symptoms. If we take random x-rays of people, some are likely to have TB but no symptoms. Our motto is to - find all TB to elimi-nate TB," said Dr Kuldeep Singh Sachdeva, who has earlier been the head of India's TB elimination programme at the Ministry of Health and Family Welfare (as Deputy Director General – TB). Dr Sachdeva has also served as Southeast Asia Regional Director of International Union Against Tuberculosis and Lung Disease (The Union) and currently leads Molbio Diagnostics as President - Chief Medical Officer. Agrees Dr Rennis Davis Kizhakkepeedika, President of Association of Pulmonologists Thrissur and Professor and Head, Pulmonary Medicine Department and Vice Principal, Amala Institute of Medical Sciences. "Findings of our national TB prevalence survey are an eye-opener as over half of TB patients would have been missed if x-ray screening was not done. We have a lot of undiagnosed TB in the population. I feel we have to get to the community level and find TB regardless of the 4 symptoms, as many may not have them. If we can reach the moon, then why cannot our TB and health services 'reach the unreached' at the community level?' Ensuring that everyone gets screened for TB and all those with presumptive TB get a WHO recommended molecular test diagnosis is key to ending TB. We need to stop using TB tests like microscopy which underperforms in diagnosing TB and misses around half of TB patients, in addition to not being able to diagnose drug-resistant TB. That is why the WHO's highest level initiative Find.Treat. All (first launched in 2018) calls upon all governments to replace microscopy with upfront molecular testing completely. This call was also echoed by the world leaders at the United Nations General Assembly High Level Meeting on TB in September 2023. But, as per the latest WHO Global TB Report, more than half of those diagnosed

with TB in 2022 did not receive a molecular test.

Screen everyone regardless of TB symptoms

As typical symptoms of TB may not be there in all people with TB, x-ray is the best screening tool recommended by the World Health Organization (WHO). We now have handheld battery-operated x-ray machines to screen for TB. We also have point-of-care, decentralised and battery-operated molecular tests for accurate diagnosis of all those screened for presumptive TB. We must replace microscopy with 100% upfront molecular testing - we are moving in this direction, but we have to increase the pace, said Dr Rakesh PS, who has earlier served the science has to offer and what reaches the people

"Our role as a community service organisation, is to bridge the gap between what science has to offer and what reaches the people. All of us are at risk of TB, but some- like migrants, homeless and slum dwellers- who we call the key vulnerable populationsare more exposed and vulnerable to it due to poor living and nutritional conditions. Many people in the community do not read newspapers and do not have access to media. Also, there is a lot of misinformation about TB. We can help at the grassroots by going from person to person and mobilizing communities to access services. People in the community should have access to correct informa-

infection will keep spreading from one person to another. Finding them - which means early and accurate molecular test diagnosis - and linking them to effective treatment, supporting them through the treatment and ensuring they get cured - is vital cog-in-the-wheel if we are to inch towards ending TB.

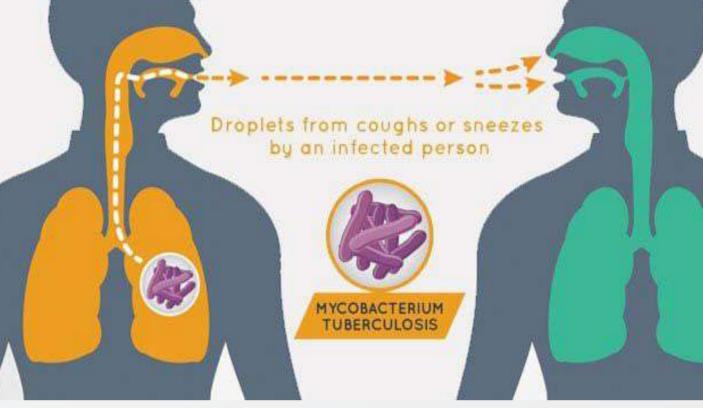

Treating latent TB infection is also preventing TB. More importantly, addressing risk factors of TB play a vital role in protecting people from getting infected in the first place. TB risk factors also increase the risk of people progressing from latent TB infection to active TB disease. These risk factors also make TB difficult to treat. As per the WHO, biggest risk factor for TB is undernutrition. Tobacco and alcohol use,

from TB but the infection will also keep spreading. Dr Mario Raviglione, former Director of WHO Global TB Programme had said to CNS ten years ago that not doing DST upfront is a clinical malpractice. We need to make universal DST for all the medicines used in the treatment a reality on the ground.

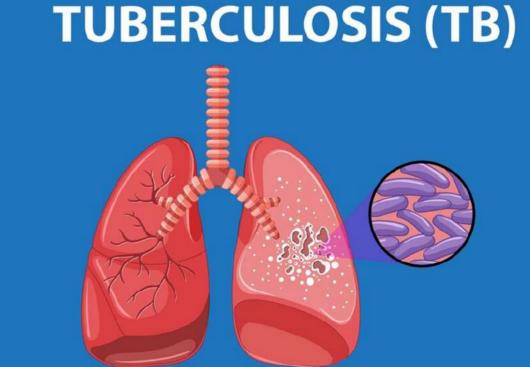

Join the call to find all TB, treat all TB and prevent all TB

One hundred and forty nine TB experts at the conference endorsed a global call to find all TB to stop TB (www.bit.ly/

r Pomson added: "If we do not find a person with TB, then the infection can further spread to another 10 people. That is why finding all TB cases, and treating all of them remains so fundamental. We must go for 100% detection of all estimated cases everywhere and put them on treatment, motivate them to finish the therapy and get cured.

TUBERCULOSIS

WHO as well as Kerala State TB Office, and is currently part of the Southeast Asia regional team of The Union.

"Community involvement is a must. We have to take help of people who have lived experience of going through TB disease. They are the ones who know the ground realities - what it is like to seek care, how to navigate through the health system, get diagnosed and be put on treatment. Science has gifted us tools to get correct and accurate TB diagnosis in one hour. But situation on the ground could be different. It may take a person many visits to the clinic /doctor (even months) to finally get a test done for TB," added Dr Sachdeva

Bridge the gap between what

tion and create demand for the best tools to help find all TB," said Lisbeth Aarup of Humana People to People India.

Dr Sachdeva, Dr Rakesh PS, and Lisbeth Aarup were among the panelists who spoke at a media workshop hosted by Kerala Union of Working Journalists Thrissur at Thrissur Press Club along with TB People (India) and CNS . Dr Joju Pomson and Dr Rennis Thomas K were featured in the End TB Dialogues at the 78th National Conference of Tuberculosis and Chest Diseases (78th NATCON).

Treatment is also prevention

Failure to find people with TB of the lungs will not only increase their human suffering but also diabetes, and HIV are some of the other major risk factors that put people at risk of TB. Comprehensive TB prevention campaigns that are evidence-based must be rolled out optimally to protect people from TB. Also we must remember that protecting people from malnutrition, tobacco, alcohol, HIV or diabetes would be a major boost for public health and sustainable development.

Doing drug susceptibility testing (DST) - a test which informs if the medicines used to treat TB, work on the TB bacteria (or is the bacteria resistant to one or more of them?), is also necessary. All persons diagnosed with TB must be put on appropriate treatment with drugs that are effective to treat TB in them. Otherwise not only the person keeps suffering findalltb), which has 1 key ask: Stop missing TB cases, by taking 2 actions:

_ _ _ _ _ _ _ _ _ _

Replace smear microscopy 100% with WHO recommended molecular tests as soon as possible, along with a paradigm shift from a lab-centric to a fundamentally people-centric model to find TB, leaving no one behind

Find the missing millions! Screen everyone (and not just those with TB symptoms) in high burden settings with WHO recommended screening tools, and confirm those with presumptive TB using molecular tests.

Cold Weather Can Cause Stiffness In Joints; Try These Strategies For Relief

cause stiffness in joints for some individuals, especially those with conditions like arthritis or other inflammatory joint issues. In this article, we share a few remedial strategies that can help provide relief from joint stiffness.

10 Strategies to help reduce stiffness in the joints during winter:

1. Keep warm

Opt for warm, baggy clothing that will retain body heat near the skin. Instead of hiding under several blankets to stay warm, you can stay warm while you're moving around by dressing in layers of warm clothing.

2. Apply heat

Use tools like heating pads, warm towels, or hot water bot-

old weather can tles to apply heat on affected joints as it helps increase blood flow and reduce stiffness 3. Gentle exercise

> Engage in low-impact exercises like walking, swimming, or yoga to keep joints mobile and relieve stiffness. Avoid high-impact activities that may strain the joints further.

4. Stay active Avoid prolonged periods of inactivity or sitting. Take regular breaks, stretch, and move around to prevent joints from becoming stiff.

5. Use joint protection techniques

Use assistive devices like braces, splints, or supports to protect joints and reduce stiffness caused by cold weather.

6. Maintain a healthy weight Excess weight can put additional strain on joints. Follow a balanced diet and maintain

a healthy weight to alleviate joint stiffness. Maintaining a healthy weight can further help you better stretch and

maintain better overall health. 7. Stay hydrated Drink plenty of water to keep the joints lubricated

and reduce stiffness. You are encouraged to consume 2-3 litres of water daily for better overall health

8. Incorporate anti-inflam-

matory foods Add foods like fatty fish, nuts, green leafy vegetables, and berries to your diet as they contain anti-inflammatory properties that may help reduce joint stiffness. 9. Try supplements

Certain supplements like omega-3 fatty acids, glucosamine, or turmeric may assist in reducing inflammation and stiffness. Consult a healthcare professional before starting any supplements.

10. Seek physical therapy Consider working with a physical therapist who can provide tailored exercises. massages, or other therapeutic techniques to alleviate joint stiffness

To follow these strategies effectively:

Check the weather forecast

and be prepared with appro-priate clothing and heating equipment.

Prioritize staying active with gentle exercises and joint protection techniques.

Stay consistent with your exercise routine and avoid long periods of inactivity.

Incorporate anti-inflammatory foods and supplements as advised by a healthcare professional.

Seek guidance from a physical therapist for proper joint maintenance

These strategies help reduce stiffness by improving blood circulation, keeping the joints lubricated, providing warmth, reducing inflammation, and promoting joint flexibility. However, it is important to consult a healthcare professional to determine the best approach for your specific condition.

Feeling Hungry After Eating? Here Are 5 Reasons Why

o you feel hungry after finishing a full-fledged meal? If yes, you are not alone. It is a common problem that many face. Several factors such as diet, hormones, meal timings and lifestyle can make you feel hungry even after eating. To beat these hunger pangs you will find yourself snacking more than usual. Unhealthy snacking can further contribute to weight gain. To keep the post-meal hunger at bay, it is crucial to understand the possible causes. In this article, let's \oplus **m** discuss the reasons why you feel hungry after eating with

solutions Reasons why you are hungry after eating

1. Lack of protein and fibre Both protein and fibre play a significant role in keeping full for longer. They promote satiety and prevent unnecessary hunger pangs. So, try adding enough protein and fibre to your meals to suppress hunger.

2. You are thirsty It is common to confuse thirst for hunger. Many times

When you are hungry, try drinking some water. It might common side effects of high be the perfect calorie-free solution.

Here's How You Can Add Moringa Leaves To Your Diet

oringa or the leaves of the drumstick plant can offer a range of health benefits. Moringa leaves can be used in both fresh and dried forms. They are also easily available in powdered form. Moringa leaves are a powerhouse of nutrients. They are loaded with essential nutrients including protein, vitamin C, iron, magnesium, vitamin A, vitamin B6 and riboflavin. Now you know why adding these leaves to your diet is a must! However, many are still not aware of the multiple ways these leaves can be inculcated into the diet. If you are confused too, keep reading.

First, let's understand the benefits of moringa leaves:

High blood sugar levels can elevate the risk of several conditions. Moringa leaves can help reduce blood sugar levels. People with diabetes can also add moringa powder to their diet to manage the condition effectively.

Moringa leaves are loaded

radicals

Studies have shown that moringa leaves can help reduce inflammation and cholesterol levels.

Moringa may also help maintain healthy blood pressure numbers.

The anti-inflammatory properties of moringa can help people with arthritis manage

powder into a glass of luke-1. Add to dough You can wash and chop moringa leaves then add these to the dough you are preparing. Dried moringa leaves or mor-

warm water. Drink this as it is or add lemon or honey to enhance the taste. 4. Add to salads and sauces

You can easily add moringa powder or fresh leaves to salads and sauces to enhance the nutritional value.

Moringa leaves can offer you many health benefits. However,

you will find yourself snacking when thirsty

BJP Finalises Panel

more influential and protuberant people are in the list to join the party in the days ahead," the leader said.

For two seats in Jammu, the names are being finalised and will soon be sent to the parliamentary affairs panel of BJP in New Delhi. For Kathua-Udhampur Lok Sabha seat, MoS in PMO and incumbent MP Dr Jitendera Singh is all set to be repeated for seat while as for Jammu seat, there is a likelihood to replace incumbent MP Jugal Kishore. "Former J&K Assembly speaker Kavinder Gupta and Devender Singh Rana are two main contenders for the seat," sources in the BJP said—(KNO)

J&K Saw Era Of

today people of all religions have the freedom to celebrate their festivals in Kashmir. The picture here has changed. Anyone can now buy land in the Kashmir valley. Kashmiri Pandits now feel powerful and empowered. We have become economically strong.

He added that Jammu and Kashmir was the place where even the President of India could not take an inch of space. An Indian soldier could sacrifice his life to protect Jammu and Kashmir, but could not build even a hut there

"This is a big transformation. From social point of view, the work of empowering 100 million people has been accomplished under the leadership of Prime Minister, Narendra Modi," he added.

'What India Thinks Today', a global level Summit, is being held in the national capital Delhi.

The event, being hosted by TV9, India's number one news network, has begun to deliberate deeply on several significant issues including the country's politics, governance, economics, health, culture and sports.

Apart from PM Narendra Modi, Home Minister, Amit Shah, Defense Minister, Rajnath Singh, Union Ministers Anurag Thakur, Bhupendra Yadav and Smriti Irani, Railway Minister, Ashwini Vaishnav, Jammu and Kashmir Lieutenant Governor, Manoj Sinha, Uttar Pardesh Chief Minister, Yogi Adityanath, Assam Chief Minister, Mahimanta Biswasrama, Delhi Chief Minister, Arvind Kejriwal, Congress President, Mallikarjun Kharge, Uttarakhand Chief Minister, Pushkar Singh Dhami, Madhya Pradesh Chief Minister, Mohan Yadav, Chhattisgarh Chief Minister, Vishnu Desai, Haryana Chief Minister, Manohar Lal Khattar, Punjab Chief Minister, Bhagwant Man, AIMIM Chief, Asaduddin Owaisi, Congress leader, Pawan Kheda, Yoga Guru Baba Ramdev and former NITI Aayog CEO, Amitabh Kant will also present their views in 'What India Thinks Today'

Besides, prominent figures from arts and sports world including former Australian Prime Minister Tony Abbott, former Maldivian Defense Minister. Maria Ahmed Didi. Velina Tchakarova, former India's Permanent Representative to the United Nations, Syed Akbaruddin will also express their views.

Pahalgam, Gulmarg Kokernag, also in south Kashmir, received

0.6mm of rain and recorded a minimum of minus 0.3°C against minus 2.8°C on the previous night and the temperature was below normal by 0.4°C for the place, the official said.

Kupwara town received 1.0mm of rain and recorded a low of $0.4^\circ C$ against minus $3.5^\circ C$ on the previous night and it was 3.5°C below normal there, the official said.

Gulmarg received 4.0 cms of snow and recorded a low of minus 6.4°C against minus 9.0°C on the previous night. The temperature was below normal by 0.6°C for the world famous skiing resort in north Kashmir.

Jammu, he said, recorded a minimum of 9.9°C and it was below normal by 1.7°C for the winter capital of J&K.

Banihal recorded a low of 3.8°C, Batote 4.8°C and Bhaderwah 3.4°C, he said.

Regarding the forecast, he said, on February 28-29, partly to generally cloudy weather is expected with possibility of light rain and snow at isolated places.

From March 1-3, he said, there is possibility of light to moderate rain and snow at most places with heavy rain and snow at few middle and higher reaches during March 2 and 3.

"Few places may experience thunder/ lightning/hailstorm accompanied by gusty winds during the period.'

While 'Chillai-Kalan', the 40-day harsh period of winter ended on January 29 and 20-day-long winter period called 'Chillai-Khurd' ended on February 19, Kashmir is the middle 10-day-long period 'Chillai-Bachha' (baby cold) which culminates on March 1. (GNS)

Police Transfers

The modification of the order by ECI has come as a major relief for J&K government, which otherwise was required to effect another round of transfers

In the earlier order, the poll body had directed officers who are transferred out of the district are not posted within the same Parliamentary constituency. Only States and UTs upto two segments were exempted from the directive—(KNO)

LeT Associate

During naka checking suspicious movement of one person coming towards naka point by foot was observed, police said.

"While seeing police party and security forces, the suspect person tried to flee from the spot but alert naka party apprehended him tactfully. During preliminary questioning, he was identified as Mehraj ud din Bhat son of Manzoor Ahmad Bhat resident of Mundyari Pattan," police said.

"During his search, one live hand grenade was recovered from his possession. In this regard, case under sections UA (P) & Arms Act has been registered in PS Pattan and investigation has been taken up," police said.

CS Administers Oath

them about the preparedness of the UT to receive the waters from the Shahpur Kandi barrage. He asked them to further explore possibilities of bringing more land under crop production by devising requisite irrigation schemes under NABARD etc.

On the occasion the ACS, Jal Shakti Department, Shaleen Kabra informed the gathering that the regulatory authority has now become fully functional as 3 out of 5 members are in place now making the quorum viable.

He gave out that the Authority has an

essential duty of regulating water resources in the UT. He said that its mandate includes ensuring judicious, equitable and sustainable management, allocation and utilization of these resources, fixing the rates for use of water, and all other relevant matters.

Pertinent to mention here that Sharma, an erstwhile IAS officer has served in higher administration and management roles in J&K government holding senior responsibilities

He had been the Regional Director (Survey & Land Records), Udhampur, Director Handloom Development Department, Secretary Public Service Commission (J&K) and lastly the Custodian General of J&K before superannuation from active government services in June, 2023.

Houseboat Sinks

incident underscores the long-standing demand for the relocation of houseboats, which has been neglected by the authorities for years," he said.

The sinking of the houseboat serves as a reminder of the challenges faced by the houseboat owners of River Jhelum, Paktoon said. He urged the concerned authorities to address the issue promptly to prevent further incidents—(KNO)

India's rural-urban income gap declines sharply amid fall in poverty level: SBI Report

NEW DELHI: Along with the sharp decline in poverty in India, there has also been a marked reduction in the rural-urban income divide in the country, according to an SBI Research analysis of a Consumer Expenditure Survey released on Tuesday.

Rural Poverty has staged a significant 440basis point decline since 2018-19 and Urban Poverty a 170-basis point decline post-pandemic, which shows that the government initiatives for promoting the welfare of the bottom of the pyramid are having a significant beneficial impact on rural livelihood, the report states.

Rural Poverty is now at 7.2 per cent (25.7 per cent in 2011-12 while Urban Poverty is at 4.6 per cent (13.7 per cent in 2011-12), official data show.

The report further states that India is becoming more aspirational as indicated by the increasing share of discretionary consumption (like spending on beverages. intoxicants, entertainment,

Bengal Guv writes to Mamata govt, seeks Sheikh Shahjahan's immediate arrest

KOLKATA: West Bengal Governor C.V. Ananda Bose has written a letter to the state government seeking immediate arrest of Sheikh Shahiahan, the absconding Trinamool Congress leader from Sandeshkhali and accused mastermind of the attack on ED and CAPF personnel.

In the letter, according to a government official aware of its contents, the Governor has also sought an explanation from the state government in case the arrest is not done within the next 72 hours.

The official further said that the email communiqué on this count was forwarded to the state secretary on Monday night and it came to the notice of the

IIT-Kanpur's Class of 1974 pledges Rs 10.11 crore for their alma mater

IANS

KANPUR: In a heartfelt gesture to their alma mater, the Indian Institute of Technology-Kanpur (IIT-K), the Class of 1974 has pledged Rs 10.11 crore for supporting various activities at the institute

The pledge comes as part of the Golden Jubilee Reunion of the batch held from February 23-25, with over 80 alumni in attendance along with their families.

ment highlights the alumni's enduring dedication to support various research endeavours and initiatives benefiting students at IIT-Kanpur, while the three-day celebratory event offered them the scope to reminisce, reconnect, and reaffirm their commit-

Continuing her inspection, Anoo Malhotra visited Panchayat Arigam in Khansaheb Block of the district to interact with community members and to evaluate the functional status of the assets constructed in the panchayat. She stressed the need for proper maintenance and utilization of these plants the community. "Massive IEC campaign is needed to aware locals about the proper use of assets created under SBM-G." she said. DG Rural Sanitation

also asked the officers to speed up the Swachhata Green Leaf Rating (SGLR) process with different Hotels and Resorts and identification of land for construction of Faecal Sludge Treatment Plant (FSTP) in the district.

Anoo Malhotra told the officers to consult Project Management Unit (PMU) expert team led by Sumit Mehta for any kind of technical interventions or guidance regarding implementation of different components of SBM-G

The tour underscored the Directorate General Rural Sanitation's commitment to promoting sanitation, sustainability, and community engagement in rural areas

Other officials who were part of this tour included Deputy Director Rural Sanitation Kashmir, ACP Budgam, District Panchayat Officer, Budgam and BDOs.

'Centre likely to notify CAA rules before announcement of LS poll schedule'

IANS

NEW DELHI: The Central government is likely to notify the rules for the Citizenship Amendment Act (CAA) before the Model Code of Conduct (MCC) comes into play ahead of the upcoming Lok Sabha elections.

Earlier this month, Union Home Minister Amit Shah had said that the CAA would be implemented before the Lok Sabha elections this year. Now, the Ministry of Home Affairs (MHA) could notify the CAA rules any time before MCC comes into effect.

The CAA amends the Citizenship Act of 1955 to provide Indian citizenship to migrants from Afghanistan, Bangladesh and Pakistan who belong to Hindu, Sikh, Jain, Parsi, Buddhist, and Christian communities and had entered India on or before December 31, 2014, due to religious persecution in their home countries. The CAA will help refugees from these neighbouring countries, who don't have documents.

"There is misinformation and incitement targeting our Muslim brothers regarding the CAA. The CAA is solely meant to grant citizenship to people, who sought refuge in India due to persecution in Pakistan, Afghanistan and Bangladesh, and it does not aim to deprive anyone of their Indian citizenship," Amit Shah had said.

Babila Rakwal convenes Public Darbar in Samba

GMK NEWS NETWORK

SAMBA: Secretary, Cooperatives, Babila Rakwal Tuesday convened a Public Darbar at Rajpura block here to assess the public grievances as well as review the overall developmental profile of the area.

The Public Darbar witnessed overwhelming response from all sections of the society with delegations of former BDC members, former PRIs, social workers and community representatives participating in the event. They presented memorandum of demands and grievances before the Secretary, covering wide range of developmental and infrastructural issues concerning their respective areas.

During the Darbar, the delegations and public raised various issues before the Secretary like road connectivity, PMAY houses, Jal Jeevan Mission, border road connectivity, cleanliness in schools, illegal mining, consistent power supply for farming activities, requirement of ambulance for emergency, one block level tehsil headquarter and availability of veterinary facilities and

dispensaries for the local population among others.

The Secretary gave patient hearing to the speakers and assured them their genuine issues will be immediately prioritized by the District Administration and matters pertaining to the Government shall be projected to the concerned departments for redressal.

> district officers to enhance service delivery, emphasizing that it is crucial for Good Governance. The Secretary highlighted the need for increasing awareness on HADP to promote good farming practices and

uplift farmer skills.

On the sidelines of the public darbar the Secretary also gave away a Tractor to farmer as part of extending facility of subsidised farming implements. She also handed over a Tractor and sanction letters among the beneficiaries Later, Babila Rakwal

also felicitated local female runner who brought laurels by clinching Gold Medal for Samba.

Deputy Commissioner Samba, Abhishek Sharma; Sub District Magistrate Ghagwal besides other senior officers were also present on the occasion.

India, France army chiefs discuss ways to bolster bilateral cooperation

IANS

NEW DELHI: France's Chief of Army Staff General Pierre Schill on Tuesday called on Indian Army chief General Manoj Pande and discussed ways to strengthen bilateral cooperation between the two armies.

General Schill is on a three-day visit to India from February 27-29 to strengthen strategic collaboration between the two nations across defence, security, and technology.

"They exchanged ideas and held constructive discussions on various contemporary issues, including strengthening bilateral cooperation between the two armies," the Ministry of Defence said in a statement.

Prior to the meeting, a ceremonial Guard of Honour was presented to General Schill at the South Block lawns here where General Pande was also present.

The visit commenced with a wreath-laying ceremony at the National War Memorial, where

the French army chief paid homage to the fallen heroes of the Indian Armed Forces.

"The visit by General Pierre Schill highlights the shared commitment of France and India to strengthen their strategic collaboration across defence, security, and tech-

nology "Such bilateral visits and various exercises between the militaries of both the nations epitomise the longstanding bond between the armed forces and reinforce their dedication to promoting regional stability and international security.

Going further, General Schill will be interacting with defence industry representatives and also witness Pinaka firing demonstration in Rajasthan. He will also be visiting Sapta Shakti Command in Jaipur and interact with senior military commanders.

On February 29, he will be addressing the officers at the prestigious National Defence College (NDC).

A 95-member contingent and a 33-member band contingent from France marched down the Kartavya Path this year on Republic Day with the French Foreign Legion contingent including six Indians.

ferent legislations of the Government including Juvenile Justice Act to ensure the pro-

tection of child rights. During the programme, various speakers highlighted the crucial role and responsibilities of stakeholders in ensuring the effective implementation of these Acts and encouraged active participation.

MISSION SHAKTI BOOSTS GIRLS 'Beti Bacho Beti Padho' event encourages equality, education in Jammu

GMK NEWS NETWORK

JAMMU: Social Welfare Department on Tuesday arranged a special event under the mission of "Beti Bachao Beti Padhao" here at the Mission Shakti Office in Preet Nagar, aiming to support girls and

promote equality. Inspired by the slogan of the Government of India's initiative, the event focused on "Save the Girl Child, Educate the Girl Child." It emphasized the importance of investing in girls' education to create a fair society.

Under the slogan of Beti Bachao Beti Padhao, the event aimed to stop bias against girls, addressing issues like female feticide, underage marriages and gender prejudices. The goal was to raise awareness and create an environment for the overall development of girls.

The event had Deputy Commissioner Jammu, Sachin Kumar Vaishya, as the Chief Guest, along with Additional Deputy Commissioner Shishir Gupta and special guests Ishita Rathi (IAS) and District Social Welfare Officer Mamta Rajput.

Other attendees includ-ed Shagun Manchanda, District Mission Coordinator Mission Shakti and officials from DHEW and OSC Jammu.

Deputy Commissioner Sachin Kumar Vaishya spoke about the "Beti Bachao Beti Padhao" campaign and also distributed essential items like nutritional kits, baby essentials, school bags, laptop bags and sewing machines among beneficiaries.

The program included informative sessions with Advocate Mamta discussing legal matters. Dr. Paras Khanna from Shankus Hospital sharing health insights and Khushboo Kapthe, a Gender Specialist from DHEW Jammu, presenting women-centric schemes
